

The **Dyna-Form Mercury** mattress is specifically designed for users considered to be at “**High Risk**” of pressure ulcer development. Comprising of a specialist “castellated cut” and blends of the finest quality combustion modified ether foam (CME) this product provides not only the best pressure re-distribution properties, but great patient comfort & product longevity. Side Wall construction enables primary stability for patient transfer purposes. Complete with a durable, multi-stretch, vapour permeable cover and a toughened polyurethane base, the **Mercury** mattress provides an important contribution towards the infection control and tissue viability standards of a modern hospital, nursing or homecare environment.

Also Available in Pro-Formance™ Strikethrough Resistant Cover.
